

The "Air-1" Radio Network is heard in my area of Phoenix, Arizona on an FM translator at 88.7 FM. Air-1 serves our community by filling the need for quality Christian Music for young people. I am served personally by the fact that I listen to the station daily, and almost exclusively. I understand that the FCC is proposing expansion of LPFM stations that might take priority over the current FM translator service that Air-1 uses. I want to express my disapproval of such action by the FCC at this time. Thank you.
